

Youth Group Values Statement

- God is worthy of worship. Our task is to help students love God and commit their lives to following Him as disciples of Jesus.
- God's Word is powerful. Our teaching should be biblically rich and relevant, equipping students to follow God in their daily lives and preparing them for life after High School.
- God designed us to live in community. We value relationships among the students, with youth group leaders, and with the whole church.
- Godly parents have the primary role of teaching their children to follow God and the youth group seeks to support those parents.
- God has given us the mission of reaching people for Christ. Youth group should be a safe place for all students, regardless of their current spiritual walk. The gospel should be regularly and clearly presented.
